

Says

What have we heard them say?
What can we imagine them saying?

Thinks

What are their wants, needs, hopes, and dreams?
What other thoughts might influence their behavior?

Imagination is the beginning of creation. You imagine what you desire, you will what you imagine and at last you create what you will. Share this Quote.

Linguists have many theories about how we comprehend heard utterances, but less to say about language production. Review your notes and add any comments while the heard information is fresh in your memory.

want to be loved. I want to be fit. I want to have a job I'm proud of. We all have hopes and dreams, but sometimes we take too little action to make them come true.

People make an effort to fulfill their dreams; however, they don't usually make a physical effort to make a hope come true.

imagination in order to imagine a future that doesn't exist. · Imagination is the beginning of creation. · Imagination is the eye ...

The way we think about something affects the way we feel about it. Our thoughts and feelings influence our behaviors, choices, and ultimately, outcomes.”

Behavioral observation is concerned with determining antecedents or determinants of behavior, as well as its consequences, in other words, the situational determinants of behavior.

Joseph Kable got interested in imagination when he was studying how people make decisions about the future.

Emotions can also affect our behavior directly, as in the case of aggression, or behavior that is focused on hurting others. When a person feels frustration, anger, tension or fear, they are more likely to act aggressively towards others.

To conquer frustration, one must remain intensely focused on the outcome, not the obstacles.”

Behavioral observations obtained during the clinical interview and formal testing highlight the child's behavior and are particularly relevant.

Agoraphobia is the fear of being alone in a situation or place where escape might be difficult.

Does

What behavior have we observed?
What can we imagine them doing?

Feels

What are their fears, frustrations, and anxieties?
What other feelings might influence their behavior?
